

## Engadin Inline Marathon PLUS, September 8-10, 2017

### Program

Do you want to discover something NEW? Enjoy the most beautiful inline skating track in the world, snow covered mountains, and crystal clear mountain lakes?

Then you should come with us. We can provide easy access to the Engadin for a weekend getaway that includes transportation from Zurich Airport or your home in five German cities, accommodations, limited meals, a program of scheduled activities, as well as participation in the inline marathon. All of this for an unbeatable price!

Who are we? We are the organizers from Experts in Speed, Motionline, and RollEvent. Together with the Engadin Aktiv Team, we will pick you up at your home or Zurich Airport and accompany you on an unforgettable weekend in Engadin.

Besides participating in the most beautiful inline marathon in the world, you will find no shortage of other exhilarating outdoor activities available to you in the Engadin, such as rock climbing, world class mountain bike trails, and stand up paddle boarding in one of the crystal clear lakes – surrounded by the stunning beauty of the Engadin. You will also have access to the mountain rail system in order to visit the “Top of the World”, and explore mountain peaks and glaciers, with the “Gratis-Bahn-Card” that we will be provided.

Furthermore, we will kick off the weekend with a welcome event for participants in the Engadin Inline Marathon and their guests, hosted by us in a local mountain chalet.
